

Sendai Framework Monitoring: Targets and Indicators

In support of the Sendai Framework
for Disaster Risk Reduction 2015–2030

Institutionalisation of the Monitoring mechanism of Sendai Framework

Resolution on the Sendai Framework was adopted by the **UN General Assembly on 3 June 2015**

An **Open-ended Intergovernmental Expert Working Group (OIEWG)** was constituted to undertake the following :

- Develop **INDICATORS** to measure global progress in the implementation of the Sendai Framework
- Update of **TERMINOLOGY** on disaster risk reduction

The UN General Assembly endorsed its report in **Feb 2017**

The Sendai Framework Global Targets

7 GLOBAL TARGETS

Reduce

a) **Mortality/**
global population
2020-2030 Average << 2005-2015 Average

b) **Affected people/**
global population
2020-2030 Average << 2005-2015 Average

c) **Economic loss/**
global GDP
2030 Ratio << 2015 Ratio

d) **Damage to critical infrastructure
& disruption of basic services**
2030 Values << 2015 Values

Increase

e) **Countries with national
& local DRR strategies**
2020 Value >> 2015 Value

f) **International
cooperation
to developing countries**
2030 Value >> 2015 Value

g) **Availability and access
to multi-hazard early warning
systems & disaster risk
information and assessments**
2030 Values >> 2015 Values

Targets and Indicators: Global and Custom

Seven global targets and thirty-eight global indicators

- Were agreed to by all Member States through the WCDRR and OIEWG
- Will measure progress made by all countries on disaster risk reduction by 2030.
- Contribute to the global analysis of the country level information submitted by countries
- Will be documented in the biennial Global Assessment Reports.

Additionally, the **custom targets and indicators**

- Are nationally defined instruments by Member States
- Measure progress against the four priorities of the Sendai Framework.
- Are based on country priorities, usually embodied in national DRR strategies
- Will be reflected in the national DRR reports of the countries.

Sendai Framework and 2030 Agenda: Integrated monitoring

In March 2017, UN Statistical Commission, in its 48th Session, endorsed the recommended indicators of the OIEWG, and identified UNISDR as custodian agency for the same under SDGs related to the following:

- **SDG1: Poverty Reduction**
- **SDG 11: Cities and human settlements**
- **SDG 13: Climate Action**

Sendai Framework and 2030 Agenda: Common Indicators

Sendai Framework
for Disaster Risk Reduction
2015-2030

SUSTAINABLE
DEVELOPMENT **GOALS**

Technical Guidance Notes

- Outlines minimum standards and required metadata for disaster-related statistics and analysis
- Recommends, in consultation with relevant technical partners, methodologies for the measurement of indicators and the processing of statistical data.
